Medicare Part B and Part D Monthly Premium Details

Most new 2022 Medicare enrollees pay \$170.10 monthly for Medicare Part B and have no additional income-related monthly adjustment for Part B. However, if your modified adjusted gross income, as reported on your IRS tax return from two years ago (the most recent information provided to the Social Security by the IRS), is above a certain limit, you may pay more. The amount you pay can change each year depending on your income, and you will be contacted by Social Security if you are required to pay more. If you do not agree with the amount you are required to pay for your Part B premium (for example, your income goes down), contact Social Security.
